

Federal Relief Funding Available for Law Enforcement Departments

Recently there has been an increase in requests for QuikClot® products as Law Enforcement Departments prepare for delays at hospitals along with heightened crime and possible civil unrest. To help with this impact the US government approved a disaster declaration for your state to help with the COVID-19 crisis, which opens up funding from FEMA to support your efforts on the front line.

The information below is a guide to FEMA funding and QuikClot® hemostatic product & kits.
